GRILLIN' EASY

Summer may not officially end until September, but next weekend's Labor Day picnics mark the end of the serious grilling season. This year, go easy on the prep and the wallet with the classics: burgers, dogs and sausages.

◀ **APPLEGATE FARMS ORGANIC LINKS:** One of the first organic meat companies, Applegate specializes in organic hot dogs, bacon, cold cuts, and sausages like brats or chicken-and-apple. Just be careful when you grill these often leaner links: You might want to oil the grate to keep them from sticking. They're about \$6 at supermarkets citywide.
